On our temporary supported accommodation schemes (the Specialist Housing Scheme (including the Fell House Project), the SMART Project and the C47 Scheme) we can offer housing to sixty-seven people across fifty-seven properties within North and West Cumbria. We can offer floating support to a further sixty-three people and have capacity to provide twelve people with 'short term resettlement support' at any one time. The numbers accessing our housing and benefits advice schemes are more fluid and we strive to meet the needs of all those referred. See the document below for a breakdown of our provision within each area and click on the links on the left-hand-side for more thorough information about each scheme.

For more information, refer to ["Breakdown of CASS schemes by location"](#); attached here .
