
What happens if I start working whilst I'm living in C.A.S.S. accommodation?

The first thing is that you need to tell us - and also provide Housing Benefit with information about your wages. You may still qualify for some benefits depending on the amount of money you earn. Your Project Worker would assist you in completing any necessary paperwork and we can calculate the amount of rent you would need to pay. Your Project Worker will also discuss rent payments with you and arrange a convenient method for these payments to be made.
